

Agriculture Applications

We deliver clean air so companies operate safely, and families can be healthy together. It is the mission of Pleatco Filtration to be a best-in class manufacturer and supplier of replacement and OEM filtration products.

Minimizing Safety Risks

Air filtration plays a major role in the agriculture industry. As the world's largest industry which generates over \$1 trillion dollars worth of food each year, many depend on agricultural products such as grain, wheat, fruits, vegetables, seeds, nuts, feed, and more! Dust control plays a role in keeping workers and industrial plants safe and creating a healthier working environment. Processes where dust may be generated include:

- Conveying
- Grain Processing
- Mixing
- Milling

Stocked Filters

We stock many standard OEM replacement filters that are able to ship within 48 hours!

Combustible Dust Hazards

Combustible Dust Hazards exist in agriculture applications; especially in grain processing.

Manufacturing Excellence

All Pleatco filters are built to OEM specifications or better. We use a wide range of materials to build innovative products, delivered fast and cost effectively.
