

Food Processing

We deliver clean air so companies operate safely, and families can be healthy together. It is the mission of Pleatco Filtration to be a best-in class manufacturer and supplier of replacement and OEM filtration products.

Prevent Contamination

Air filtration plays a major role in food processing. The #1 priority of these manufacturers is product quality and safety. To better protect food from contaminants, air filtration is needed. In order to make sure these regulations are met, FDA guidelines must be followed.

There are many different applications and processes, just to name a few.

- Grain/Cereal Processing
- Milling
- Sugars
- Mixing
- Pneumatic Conveying

Stocked Filters

We stock many standard OEM replacement filters that are able to ship within 48 hours!

Combustible Dust Hazards

Combustible Dust Hazards exist in food processing applications; especially from dry ingredients.

Manufacturing Excellence

All Pleatco filters are built to OEM specifications or better. We use a wide range of materials to build innovative products, delivered fast and cost effectively.
